I would like to personally congratulate each of you for successfully completing the Automotive course at our school. As you know, this qualifies you for a worthwhile starting job in the automotive industry — a job which can lead in any of several different directions. Some of these are to a specialized mechanic's job, a repair business of your own, a trouble-shooting job with a large automotive company, a job in a dealer's service facility, a position with a large parts company, and many others.

New horizons are opening up to all of you in other directions as well. Many of you will enter college this fall and try to combine both a trade education and that of a liberal arts or a technical education. I hope each one of you succeeds in your endeavor. It will certainly give you a very much enriched preparation and background. But may I remind you that regardless of what happens in the future, you have a priceless training as an automotive mechanic which you can always use now or later in the trade area for which you are trained. In the rapidly changing scene today, this is more than many of your fellow New York City graduates can rely upon.

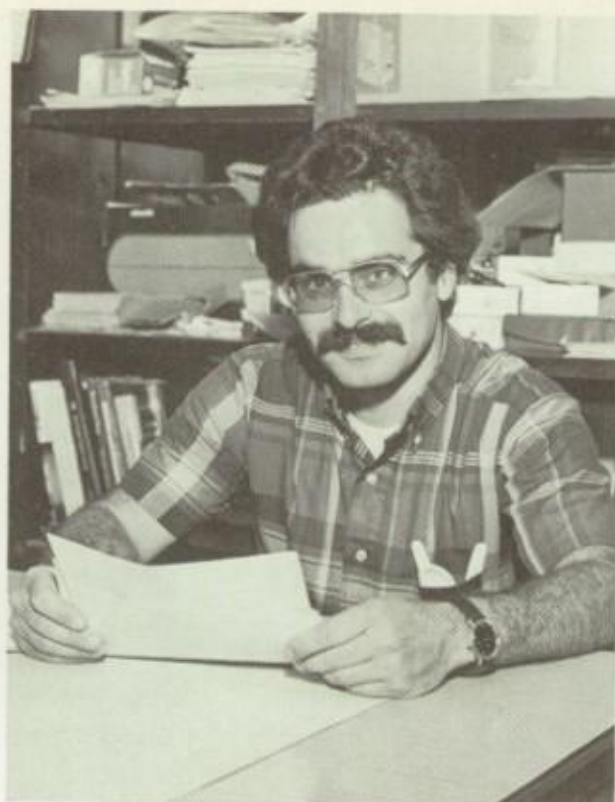

Last of all, can I wish each and every one of you the very best of luck in whatever field of endeavor you may decide to enter. Remember, too, that you can always come back for advice and help to Automotive High School.

### AUTOMOTIVE HIGH SCHOOL

Automotive is a school in which young men and a few women come to learn the Auto trade. Through the guidance of the dedicated staff, these young men and women obtain their education in the Automotive field. The head of our school is Mr. Louis Auerbach. He is a warm and understanding principal. Mr. Auerbach is the kind of man every school in the city would like to have. It is through his guidance that Automotive H.S. has become one of the most well disciplined schools in New York. The academic department of our school may not be the best in the city, but it does its best to see that the students get the right academic education. The teachers stress the need of our academic ability as well as our mechanical skills. Our shop department is tops in the city as far as auto-mechanical skills are concerned. They teach you everything you need to know about the automotive field. When students enter the ninth and tenth grades they go through exploratory shops. In the eleventh and twelfth grades they either go into auto-body or auto-mechanic shops, whatever they prefer. The auto-body department consists of welding and body and fender shops. The auto-mechanics department consists of tune-up, transmission, heavy-engine overhaul and service shops. We also have an excellent drivers' education program and quite a few championship teams. These past four years spent in Automotive High School will always be remembered. I entered a young boy and now I'm graduating as a young man ready to face the world, thanks to the education I received at Automotive High School.

*1920 - 1979*

Mr. Frank Cascio, fresh out of the automotive service industry, came to Automotive High School as a substitute teacher on February 1, 1963. He was appointed as a regular teacher on February 2, 1966.

Frank's wide range of experiences in both his military and civilian careers served him well at Automotive: he was a tank mechanic and driver in the Pacific theater during the Second World War; later he served as a tank mechanic instructor in the States, and after being discharged, worked as a mechanic in the automotive industry.

From the very start of his new career as an auto mechanics instructor, Frank was recognized as a fine teacher by his colleagues as well as by his students. While at Automotive, he taught all grades in auto mechanics including Service Shop.

Aside from his expertise and knowledge in auto mechanics, Frank had other interests. He was involved in restoring old cars and, in addition, collected models, books, and photographs of them. He loved music and was particularly interested in Jazz, Dixieland, and the sound of the big bands. He was a great fan of Frank Sinatra.

Frank enjoyed spending his summers in the Hamptons where he would get in some bike riding or a quiet afternoon in his boat whether or not the fish were biting.

His untimely departure has no doubt left a void in the lives of his wife and daughters. Needless to say, all of us who knew Frank at Automotive will miss him dearly and will consider our lives the richer for having known him.

Dear Ronald,

Time is valuable...  
Do something with it.  
Madine Hounoy

Dear Ronald,

Hope your life is  
easy, rich, successful.

Love Roy

Dear Ronald-

Be the pride and  
joy of everyone. But  
don't be no one's  
fool. Good luck  
in all your endeavors.  
Love, Diana

Dear Ronald,

I have watched you grow to a fine  
young man. Keep on being the way  
you are. "The door to success stands ajar,  
enter!"

Sincerely,

Ms. Luella Peres

Good Luck

Have a nice life  
and some peace.

It's the only one you got,  
It has no price.

Have a nice future, a nice job, if you have  
any children name them James, Billy and Bob.

Best wishes to you.

Look little RONALD  
Sitting on a fence  
he made it to  
college with a  
little bit of sense  
I wish you the  
best of luck.
